and more!

Benny's

What was once an axe handle factory, tobacco factory, and then rubber factory, the building at 620 Railroad Ave has a storied past. Established in the early 1900's, our property has been a staple in the Bedford community for decades. It had been left vacant for many years but not anymore.

Now, we are giving this historic property a new lease on life by restoring it into a mixed use commercial space with 58 beautiful apartments, an on-site gym and yoga studio, storage facilities, and more.

It is our hope and goal that The Six Twenty gives the town of Bedford a re-imagined use of this historic building and creates a beautiful space to retreat for residents and the community alike.
